decayed tops of asparagus.

before the snow falls. A top dressing ory. -John J. Smith, in Horticulturist, of manure in November will produce twice as much hay as it would were it FALL CAMPAIGN!! applied in the spring.

FATTENING POULTRY .- Chickens intended for market should be separated ULOTHING! ULOTHING! from the older fowls and confined in more restricted quarters, and fed liberally with a variety of food, of which FURNISHING GOODS! grain of some sort should form the basis. They should be regularly fed three times a day—the first time as THE SUBSCRIBER having purchased his soon after daybreak as possible or convenient.

No animal is easter kept than fowls. No kind of food comes amiss to them. When at liberty they obtain their living promiseuously, and pick up every- In July previous to the advance, thing that can be made use of as food in the barnyard; even the worms, grubs and bugs give them the most nutritious food. And if insectivorous than has been paid in market since, and having food is wanted, there is nothing perhaps more easily obtained, at almost any season, than by what the French call a verminier. Procure a deep crock, CLOTHING into which put some bran, and on it lay a piece of carrion or other flesh, cover it with a glass cap so as to admit light, but exclude rain; in a few days it will be a moving mass of living insects ever offered for sale before in northern Vermont or worms, which may be thrown out to Goods at low prices, and at all times to corresyoung poultry, young turkeys in par- pond with the market, even if gold goes down ticular; there is nothing they will de. to par. My stock comprises all the present your more greedily; but they should styles. be sparingly given, as the fowls are so fond of them that if given abundantly it will prevent them taking their usual food.

Over Coats, Dress Frocks, English Walking, Business Sacks, Pauts and Vests to match, Proceedings Shirts, Under Shirts and Drawers, Hats, Caps, Gloves, Ties, Scarfs, Collars, Socks, Rubber Goods, &c., &c.

We have practised another method for fattening fowls, ducks and turkeys, in the month of November, in a small, dark room, only giving them light when feeding. By depriving them of light they were kept perfectly quiet, nothing to do but eat, drink and grow 3,000 Cavalry Horses, fat, spending most of the time quietly on the roost. Feed was kept constantly before them in a flat box, consisting of a mixture of corn, oats, barley and buckwheat, with pure fresh water supplied daily. They were also provided with broken bones, oyster shells, gravel and pulverized charcoal, of which they are quietly a large quantum prior, vr. Buldley Baltlow Baltlow Baltlow

Curring up Pone. Have the hog did on his back on a stout table. The philastic of the philastic p Suggestions for November.

We condense a few hints from the Country Gentleman and Maine Furmer, which may be of some value to those who can't think of everything at once the skull lengthwise on the under side, so as to remove the brains fally. Removed the backbone in its whole length, and with a sharp knife cut off the skin whole length, and with a sharp knife cut off the skin winter quarters in readiness this more the fat, leaving of it only about the spinal cut-back of fat on the spinal fat on the laid or his back on a stout table. Country Gentleman and Maine Farmer, head off close to the shoulders, sepawhich may be of some value to those rate the jowl from the skull, and open who can't think of everything at once. the skull lengthwise on the under side, November is a trying period for all so as to remove the brains fully. Rekinds of stock. Every young animal move the backbone in its whole length, as well as an old one, should have its and with a sharp knife cut off the skin

be kept comfortably warm, during the umn. The middlings or sides are now cold and stormy nights of November cut from between the quarters, leaving in our latitude; also their supply of the shoulders square shaped, and the Let the fattening of pork be hur- suit your fancy.
